RE: **SESA Mini-Grants**

---

I am excited to announce that SESA will be offering Mini-Grants for the 2010 – 2011 school year. These grants challenge teachers to develop comprehensive science projects with their students and the grant will provide the materials for implementation. Enclosed is a timeline for the mini-grant projects. Please encourage teachers in your district to take advantage of this opportunity.

The enclosed applications for mini-grants are available to K – 8 teachers through May 14, 2010. Additional applications may be requested from Valery Conrad at 419-226-2878 or [valery.conrad@huskyenergy.com](mailto:valery.conrad@huskyenergy.com). Completed applications should be mailed to:

Allen County Educational Service Center  
SESA Mini-Grants  
1920 Slabtown Rd.  
Lima, OH 45801

A review committee composed of SESA volunteers and Allen County Educational Service Center staff will be established to review the applications. Notification of awarded grants will be made during June 2010. Project materials will be ordered in August & September, 2010. Awarded Mini-Grants will be exhibited at the 2011 SESA Volunteer Recognition luncheon in early June 2011. Formalities will be provided at a later date.

Sincerely,

Valery Conrad  
SESA Teacher in Residence, 2009-2010
